10 August 1971

Chairman, CS Historical Board

Hugh:

1. Further to our conversation today re convening a CSHB meeting with Professor Ehrmann. Dr. [REDACTED] confirms that items the Professor would like to have on the agenda are:

a. Security procedures for the CIA and CS historical programs.

25X1A9a b. The "on-going" historical program after 31 December 1971.

Dr. [REDACTED] believes that discussion of the on-going program can await my return from leave on 30 August. The Professor may feel himself under some pressure from Col. White, however, to formulate and issue security and control procedures for the program and may want to confer with you or the Board during the week of the 16th or 23rd.

2. I would of course like to be present for discussions of both subjects. I would offer to delay my leave a week and depart on the 23rd, except that I have a sizable down payment on rent of the house in Maine. I will do so in any case if the situation is considered sufficiently urgent.

3. I am attaching a slightly revised and tightened up draft of the security and control procedures for the CS historical program. I would plan, if you see no objection to give Drell a copy of this on Friday before I leave. They may be able to make use of it in formulating whatever instructions they put out, and it could

be an item on the agenda for an eventual Board meeting. I am sending Col. White's and Professor Ehrmann's memoranda (which we discussed) separately, along with my comments.

4. Will phone you re the above on Friday.

25X1A9a

  
Executive Secretary  
CS Historical Board

Attachment:  
Revised draft,  
as stated
